PROFESSIONAL SUMMARY

Dynamic and innovative healthcare professional with extensive experience in clinical nursing, education, and leadership. Demonstrates advanced autonomous practice, effective decision-making, and a commitment to improving workplace culture and healthcare delivery. Passionate about mentoring peers, embracing technology, and advancing nursing education to foster positive outcomes for both patients and professionals. Currently pursuing a Master of Digital Health to integrate AI and technology into healthcare solutions.

WORK EXPERIENCE

Clinical Nurse Clinical Facilitator

2023 - PRESENT

Ward 1A - The Prince Charles Hospital

- Oversees education and training for nursing staff on a high-acuity medical and interventional cardiology ward.
- Develops and delivers evidence-based training to enhance clinical competencies
- advocates for a nurturing professional environment to improve workplace culture

Clinical Nurse

2022 - 2023

Pulmonary Hypertension - The Prince Charles Hospital

- Managed complex care for patients with rare lung diseases, utilising chronic disease models.
- Collaborated with multidisciplinary teams to optimize patient outcomes.
- Designed and implemented education programs for staff and patients.
- Served as Transplant Coordinator, contributing to the state's pulmonary hypertension and CTEPH programs.

Acting Clinical Nurse

2022

Nursing Workforce Unit - The Prince Charles Hospital

- Ensured safe staffing levels and managed onboarding for new hires.
- Collaborated with nursing leadership to address workforce challenges and ensure continuity of care.

Clinical Nurse

2020 - 2022

Ward 1B - The Prince Charles Hospital

- Provided acute care in a 30-bed cardiology unit, focusing on advanced heart failure and transplant preparation.
- Mentored nursing students and precepted new staff members.
